Principal's Message

Coming up in November is PRSD's parents matter week Nov. 13-17. Here at the outreach we will continue to Celebrate "You Matter" during this week. This will allow us to thank everyone that supports our program by giving them the recognition they deserve and allow student to recognise people in their lives that matter to them.

Please remember that we have an open door policy here at the outreach and we would be more than happy to have you stop by for tea and check our awesome program and the services we provide for our student.

Darren George

Life Skills and Guest Speakers

Life Skills

Nov 9 - Restorative Justice

Superintendent's Message

Literacy and student achievement results

Each year, Alberta Education reports on numerous performance measures for Alberta school divisions in a report known as the Accountability Pillar Report. Our updated results show that 68.2% of students (combined in grades 6 and 9) achieved the Acceptable Standard on the Provincial Achievement Tests, and, 10.6% achieved the Standard of Excellence.

Updated results on the Provincial Diploma Exam courses show that 76.6% of students achieved the Acceptable Standard, and 8.2% of students achieved a Standard of Excellence.

In Peace River School Division, we place a strong focus on literacy. Literacy skills are crucial to overall development and whether these skills are strong or weak, they have a ripple effect that impacts all subject areas. In addition to providing the supports and resources our students and staff need, we place a divisional focus on strengthening literacy throughout the division. Literacy goes beyond the language arts classroom. It is at the core of learning, communicating and relating to the world around us.

Thank you to our students, staff and parents for your dedication to student achievement and literacy. It is through learning and working together that students are provided with high quality educational opportunities that allow them to reach their full potential and flourish in all areas of life.

Paul Bennett
PRSD Superintendent of Schools

Internet Safety

The internet has become an integral part of our lives. It provides us with information, entertainment, and various ways to communicate and socialize. While this creates great opportunities for society, it can also expose us to risks.

We cannot always protect our children from the dangers associated with the internet so it is important that we are aware of what they view and share about themselves online. In schools and at home, it is essential that we educate ourselves and our children about internet safety. The internet is here to stay and it will likely be used more and more in our everyday lives. We must become comfortable with this technology while modeling and encouraging safe online practices.

For more information regarding safe practices online, check out the following links:
